Gentlemen:

Stimulated by an April 10th letter from the Citizens Crusade Against Poverty, I have been reading some of Louis Kelso's writings, and have discussed some of his points with other staff members of the American Friends Service Committee.

I would like to be kept informed of whatever developments there might be in promulgating these exciting ideas.

Please send me any material that you have. I hope that I will be able to spend some time in the fall working on this plan in some way.

Sincerely,

Wesley Huss
Community Relations Secretary
